CREDIT OPINION

Coface's recommended individual credit amount to support your assessment on the creditworthiness of debtors, suppliers, prospects and companies with whom you are willing to do business. It is an exclusive solution, based on a customized risk assessment, that leverages our credit risk underwriting approach used to manage our business. This assessment is based on company details, financial soundness, solvency, profitability, country-sector context risks and Coface's payment experience.

COUNTRY RISK ASSESSMENT

A3: Less favourable and/or volatile macroeconomic and financial outlook. Political context remains stable. Business climate may have some shortcomings. The average probability of company default is satisfactory.

SECTOR RISK ASSESSMENT

Nespecializuota prekyba

UNITED ARAB EMIRATES

Vidurio Rytai ir Turkija

Medium Risk : A medium risk level reflects that some companies in the sector have a medium probability of defaulting on their commercial or financial obligations. Moreover, Coface considers that companies in those sectors are likely to notify some claims from their buyers in the upcoming three to six months.
High Risk : A high risk level reflects that a sizeable amount of companies in the sector have a high probability of defaulting on their commercial or financial obligations. Moreover, Coface considers that companies in those sectors are likely to notify many claims from their buyers in the upcoming three to six months.
